## BALCONI IP SATELLITE NEWS GATHERING

BALCONI, THE SEVEN NETWORK AND IPSTAR

Because of the success of its IPSNG unit, BALCONI and satellite provider IPSTAR have committed to the next twelve months to continue developing the service and in 2009 will offer an ENG replacement kit.

Meanwhile, the SEVEN NETWORK is extending its agreement with BALCONI to continue using the IPSNG system to beat opposition networks to air with breaking stories in remote locations.

## BALCONI TRACKER

TRACKER FIELD TESTS

The results of the recent field tests of the BALCONI TRACKER in and around KALGOORLIE have exceeded all expectations.

An extendable Clark Mast was used to provide more height. The extension maximized the performance of the BALCONI TRACKER. In 2009, BALCONI will undertake similar field tests throughout regional WA.

## BALCONI'S NEW WEBSITE

WEBSITE RELAUNCHED

Because of our expanding product line, new location and up-graded image, the BALCONI TELECOMMUNICATIONS WEBSITE has been given a makeover. The new-look website features a new colour scheme, slide shows on each page as well as staff profiles and all the new contact details.

Take a look at [www.balconi.com.au](http://www.balconi.com.au)
