

BALCONI VIEWS

APRIL-JUNE

The ground-breaking Allibox II

THE NEW ALLIBOX II

Balconi has launched a new, low-cost and completely portable Video Solution designed for News Crews and Government Agencies. The **Allibox II** broadcasts high-quality video and can be connected via 3G, wireless, hard-wired, Satellite and BGAN.

A huge leap forward in technology, the video quality of the **Allibox II** is unsurpassed. It can also adapt to different networks. It is a Linux based system, NOT Windows based and NO external computer is needed to operate it. Just plug it in and start streaming.

It weighs only 5kgs, lasts 5 hours on an IDX camera battery and is half the cost of existing solutions.

AUSTRALIAN NAVY TRIALS TRACKER

The Australian Defence Force is trialing two of the **Balconi Trackers** which are designed to help them communicate while at sea.

The **Trackers** will extend the range of Telstra's existing Next G mobile network by up to 150 kilometres, enabling Naval vessels to achieve affordable and reliable connectivity by phone or computer without having to use expensive satellite

LUXURY BOAT SETS SAIL

The latest luxury vessel to be built by Evolution Yachts in Henderson has also been equipped with a **Balconi Tracker**.

The 34 metre Catamaran Superyacht has recently completed its maiden voyage to Bali.

Balconi also designed, installed and commissioned the Telecommunications, Entertainment, Computer network and security systems onboard.

Balconi has worked on more than 20 Superyachts in Australia, Europe and the USA.
